INSIGHTS TALKS AGENDA

ORGANISATION	SPEAKER	TITLE	DESCRIPTION
The Dyson Institute of Engineering and Technology	Tim Jee	Re-engineering education. The Dyson Institute degree apprenticeship	University. Apprenticeship. Degree apprenticeship. What if there was something new? The Dyson Institute of Engineering and Technology is a pioneering higher education institution looking to re-engineer education. Our undergraduates study engineering, work on real Dyson projects and enjoy a unique student experience with a salary and no tuition fees.
CU Scarborough, part of Coventry University	Steven Knowles	Degrees with a difference: training tomorrow's workforce	CU Scarborough, alongside sister sites of the Coventry University group in Coventry, Dagenham, Greenwich and Wrocław, offer a unique learning model - specifically designed to remove barriers to HE and create the graduates required by industry in different regions. Find out more about what we are doing in Yorkshire.
IGD	Sarah McCarthy	Which industry employs 1 in 7 people in the UK? Come and find out!	As the UK's largest private sector employer, the food and consumer goods industry is a fast-paced and exciting place to work. Learn about the industry's current skills shortages, future talent needs and opportunities for young people to take part in IGD's industry-wide, work experience programme.
Royal Aeronautical Society	Nicholas Davis	How to navigate your career through turbulent times	Aerospace & Aviation Careers - next steps! We will be discussing the current job market situations and the Covid-19 recovery and what that will look like in a post-pandemic world.
NHS Health Careers	Abigail Changer	Routes into nursing	Nursing is a flexible, exciting and rewarding career and is no longer accessible only by one traditional route. Find out more about the various ways into the profession, including the new online degrees, apprenticeships and entry level routes which provide flexibility and accessibility.
CNet Training	Andrew Stevens	Making the world work - the digital infrastructure industry	The digital infrastructure industry is all about data; data surrounds us all and we're constantly using it. This data requires connectivity, it also needs to be stored, managed, moved and accessed, and it needs people to do this. Gain insight into the industry and the opportunities for amazing careers throughout it, and it's not all technical.
The London College of Beauty Therapy	Sarah Kimble	Beauty therapy course information and careers	Sarah Kimble is a beauty therapy lecturer here at the London College of Beauty Therapy. This talk consists of the units in level 2, level 3 and where these qualifications can take you in the industry.
